CV update time: August 2, 2023

Summary

I was born in Hebei on 12 November 1989 and received a Ph.D. degree from the University of Chinese Academy of Sciences (UCAS) in 2019. Currently, I am a Research Assistant Professor at the Southern University of Science and Technology (SUSTech), Shenzhen, China. My main fields involve computer vision and machine learning, with a long-term focus on image anomaly detection, graph feature learning, image diversification generation, and fast retrieval. We are committed to applying visual technology to the human-machine interaction environment of real industrial scenes and virtual reality.

Led the National Natural Science Foundation of China (NSFC)'s "Efficient 3D Anomaly Detection Algorithm for Industrial Vision" (Grant No. 62206122); Participated in general projects such as the theory and methods of multi-modal object 3D detection and recognition based on deep learning technology; Published 20+ papers in important international journals and conferences, such as TIP, TCSVT, Neurocomputing, ICCV, ACM MM, NeurIPS, etc., with a total of 600+ citations and 1 highly cited article. Currently serving as a reviewer for top international journals such as IEEE TIP and IEEE TCSVT, as well as a member and reviewer of the AAAI, IJCAI, ACM MM, ICML, and other top artificial intelligence conference procedures committees.

Project

- 2024.1-2028.12, National Natural Science Foundation of China, Major International (Regional) Joint Project—"Research on Key Technologies of High-Fidelity Digital Human Modeling and Driving". 3 million RMB. Chinese Side Collaborator.
- 2023.1-2025.12, The National Natural Science Foundation of China Youth Science Foundation of China—"Efficient 3D Anomaly Detection Algorithm for Industrial Vision", Grant No. 62206122. 300K RMB. Principal Investigator.
- 2023.4-2023.8. Development of a flexible electrostatic adsorption-assisted unmanned aerial vehicle visual positioning and object grasping platform. Harbin Institute of Technology (Shenzhen). 35K RMB. Principal Investigator.
- 2023.1-2025.12, Supported by postdoctoral research in Shenzhen. 300K RMB. Principal Investigator.

Experience

Department of Computer Science and Engineering, College of Engineering, Southern University of Science and Technology (SUSTech)

Shenzhen, China

RESEARCH ASSISTANT PROFESSOR

2021.10 - PRESENT

- Research on image anomaly detection, computer vision, machine learning.

Department of Computer Science and Engineering, College of Engineering, Southern University of Science and Technology (SUSTech)

Shenzhen, China

POSTDOCTORAL RESEARCHER

2019.10 - 2021.10

- Research on graph representation learning, fast retrieval, and computer vision.

Education

University of Chinese Academy of Sciences (UCAS)

Beijing, China

PH.D. IN COMPUTER APPLICATIONS TECHNOLOGY

2016.9 - 2019.7

- Thesis title: *Research on 3D Reconstruction for Objects in Multiview Video Sequences*
- Supervisor: Professor Ke Lu

Beijing Union University (BUU)

Beijing, China

M.S. IN COMPUTER APPLICATIONS TECHNOLOGY

2013.9 - 2016.7

- Thesis title: *Research on Digital Image Dehazing*
- Supervisor: Professor Ning He

Hebei University (HBU)

Hebei, China

B.S. IN ELECTRONIC INFORMATION SCIENCE AND TECHNOLOGY

2009.9 - 2013.7

Honors & Awards

2019	Outstanding Graduates from Beijing , UCAS	Beijing, China
2019	Chinese Academy of Sciences Dean Scholarship , UCAS	Beijing, China
2016	Outstanding Graduates from Beijing , BUU	Beijing, China
2015	National Scholarship , BUU	Beijing, China

Program Committees

2024	Reviewer , AAAI
2023	Reviewer , IEEE TIP, IEEE TCSVT, NeurIPS, Patterns, IJCAI, ACM MM, ICLR, PR

Publications
